

NIGHTFOX 110R NIGHT VISION BINOCULAR

- 7x magnification for long-range viewing
- 150 metre (165yd) range at night
- Recording capability (micro SD card required)
- Carry case included
- 3hrs battery life on 4x AA batteries

Description:

- The Nightfox 110R is great option for recording footage and long range viewing, thanks to 7x magnification Set up the 110R for extended periods, such as wildlife observation, using the tripod thread on the base.
- There are 7 levels of IR illumination to use in different conditions. The highest level is powerful enough to provide clear vision up to 150m at night.
- You'll need 4xAA batteries (not included). Use alkaline, lithium, or rechargeable NiMH with a capacity of at least 2000mAh. You'll also need to insert a micro SD memory card (maximum 32GB) if you wish to record footage.

Specifications:

- Fixed Optical Magnification: 7x
- Adjustable digital magnification: 2x
- Digital sensor resolution: 640x480
- Unit dimensions (cm): 130*160*50mm
- Infrared LED power output: 1.5 watts
- Power supply: 4*AA, alkaline, NiMH or lithium
- Battery Life: 3 hours with mixed IR use
- Recharge via USB: No
- Recording capability: Yes
- Recording resolution: 1280*960
- Unit dimensions: 160*130*55mm
- Unit weight: 374g without batteries
- Viewfinder technology: TFT
- Screen resolution: 320*240
- Objective aperture: 20mm
- Sensor type: CMOS
- Aspect Ratio: 4:3
- Aperture: F1.3
- Viewing angle: 5.5°
- Viewing distance at night: 150m / 165 yards
- Wavelength: 850nm

What Includes:

- Nightfox 110R digital night vision binocular
- Neck strap
- Carry case
- Instructions (in English, German, French, Spanish, Italian)
- Nightfox 18 Month Warranty
- 4x AA batteries required, not included
